

Enjoy guided tours of the Theodore von Karman Visitor Center. See first-hand some of JPL's mission spacecraft, equipment and rovers on display.

The event is FREE for Pasadena Chamber members. \$10 for all others

Please RSVP
by Friday, May 3rd at noon
to 626-795-3355 or email
info@pasadena-chamber.org.

Presented by the Business and Economic Development Committee of the Pasadena Chamber of Commerce in partnership with Jet Propulsion Laboratory

Jet Propulsion Laboratory and the Pasadena Chamber of Commerce present

The Center of the Universe (right in your backyard)

A presentation on the past, present and very exciting future of Jet Propulsion Laboratory by Deputy Director Lt. Gen. Eugene L. Tattini. Lt. Gen. Tattini is chief operating officer at JPL.

From roots 75 years ago as California Institute of Technology students tested early rocket engine designs, the Jet Propulsion Laboratory has carried out a wide-ranging program of exploration in space and Earth sciences. After building and operating America's first satellite, Explorer 1, JPL sent robotic spacecraft to all of the solar system's planets. JPL also leads NASA's program of Mars exploration, with a broad range of missions deploying rovers, landers and orbiters at the planet.

Tuesday, May 7, 2013 from 3:30pm to 5pm
Jet Propulsion Laboratory-von Karman Auditorium
4800 Oak Grove Drive
Pasadena, CA

FREE parking is available in the JPL parking lot, enter the auditorium through the exterior gate.
